

## Hidden Valley – **MANDATORY SNOW STORM PROCEDURE**

**\*\*\* Absolute Action Required – Moving Vehicles after snow storms!!! \*\*\***

### **PLOWING:**

- Plowing of our roads, walkways and paths to our roads will continue every 2 to 3 inches.
- **NO PARKING** allowed in cul-de-sac!! Snow removal equipment will occupy this area.

### **SNOW REMOVAL PARKING PROCEDURE**

1. The snow removal process begins as soon as the plow vehicles enter the complex.  
Any time there is plowing during a storm – **NO MATTER WHAT AMOUNT OF SNOW IS ON THE GROUND** – it is your responsibility to **move your vehicle at the end of the storm.**
2. **At the End of a Day Time Snow Storm**  
If it snows during the day, as soon as the snow ends we need to have all vehicles moved from their parking space to another space, the road or any area that has already been cleaned which will allow all parking spaces to be cleaned.
3. **At the End of a Night Time Snow Storm**  
If it snows during the night, all vehicles must be moved by 11:00 am the following morning.
4. All parking spaces will be plowed as long as all vehicles get moved properly.  
If there is a snow covered parking space or spaces between vehicles, that area will **NOT** be plowed.  
The plow crew will not try to maneuver around or between parked vehicles.

**PLEASE DO NOT BE AFRAID TO ASK YOUR NEIGHBOR TO MOVE THEIR VEHICLE IF IT IS AFFECTING YOUR PARKING SPACE FROM BEING CLEANED!!  
AND PLEASE HELP ANY NEIGHBORS WHO ARE UNABLE TO MOVE THEIR VEHICLE.**

**NOTE THAT ANY AND ALL VIOLATIONS TO THE ABOVE PROCEDURES ARE SUBJECT TO FINES AND TOWING.  
PLEASE WORK WITH YOUR NEIGHBORS TO PROPERLY MOVE VEHICLES AND AVOID FINES AND TOWING.**

### **SNOW REMOVAL FINAL PHASE**

- All walkways, mailbox areas and gazebo and trash area will be completed as the snow ends. It is at the snow removal company's discretion to clean the walkways a second time. During heavier snow or blizzard conditions, the snow removal crew will be on site for the duration of the storm.
- Salt/sand will be applied as needed to roads and pavement areas with more attention given to hills and low sunlight areas.

**VACATIONS** If you are planning an extended vacation during the winter months the Board must be notified!!  
In addition you **MUST** make arrangements for someone to move your vehicles during any stormy weather.

### **REMINDERS:**

Residents are allowed to use VISITOR parking spaces when there are snow storms.  
The plowing crew does not shovel behind or around any vehicles.

We have been asked to minimize our interaction with the snow crew members which will expedite the completion of their work.

The Board thanks everyone in advance for your understanding of these procedures and requirements.
